The company has been investing huge resources in developing technology, infrastructure, marketing, promotions, business process and fulfillment services over the last three years in order to expand its retail network and customer base. Since it is an innovative process of Retailing where the company orchestrates 3rd party physical retail stores with virtual inventory, the business model requires continuous investments till it reaches the breakeven

In March 2017, the company had been classified into the Graded Surveillance Measure (GSM) list by BSE. The criteria for classifying the company into GSM was not very clear to us. The impact of classifying company in GSM by BSE had led to trade restrictions and a complete 'roadblock' in terms of raising additional capital from new investors. Thus new fund raising had became an extremely challenging and a daunting task. At present the company is placed in stage I of GSM list. Consequent to classifying into GSM and failing in raising fresh capital for

the business, the company has suspended it's operation wef 1st April, 2017. The company has started piloting a B2B business in the previous quarter of the current financial year. The results have been encouraging from the Pilot and now based on the pilot results, the company is working on other aspects

of scaling its business like financial resources, technology, operational process etc. By Order of the Board Pradeep Malu Managing Director
